

Please amend the claim as follows:

Claims 1-22 (Cancelled)

23. **(New)** A cleaning device comprising:

a first cleaning member that is opposed to a developer image carrier and scrapes the surface of the developer image carrier; and

a second cleaning member that wipes the surface of the developer image carrier simultaneously with the scraping of the surface of the developer image carrier by the first cleaning member.

24. **(New)** A cleaning device according to Claim 23, wherein the first cleaning member is a roller having elastic projections and the second cleaning member is a sheet formed of fiber.

25. **(New)** A cleaning device according to Claim 24, wherein the roller is a brush roller and the sheet is a woven fabric or a non-woven fabric.
